AGILENT / KEYSIGHT

Agilent/Keysight 04339-65006

The Agilent/Keysight 04339-65006 is a high-quality component designed for use in various electronic systems. This component ensures optimal performance and reliability. Ideal for integration into existing setups or for new projects requiring dependable parts.

This unit

The Agilent/Keysight 04339-65006 is a shunt connector assembly designed for precision adjustment and calibration procedures on the Agilent 4339B High Resistance Meter. This component establishes the critical ground and guard signal paths required during voltage source adjustment operations and EEPROM calibration updates. The connector interfaces directly with the 4339B's Ground and Guard terminals, enabling accurate voltage source adjustment data configuration and system troubleshooting. Technical Specifications Rated for operation with 4339B systems handling up to 1000 Vdc maximum input voltage (when High Voltage indicator is active) Direct connection to Ground and Guard measurement terminals Key Features Dedicated shunt configuration for voltage source adjustment procedures Enables EEPROM calibration data updates on the 4339B platform Supports performance verification and system troubleshooting workflows Maintains signal integrity between Ground and Guard measurement paths Typical Applications Voltage source adjustment calibration on Agilent 4339B High Resistance Meters

System troubleshooting and performance verification EEPROM programming and calibration data management High-voltage measurement system maintenance and adjustment Compatibility & Integration Agilent 4339B High Resistance Meter Agilent V Measurement Adapter (PN 04339-65006) Agilent 3458A Multimeter integration

0433965006 Characteristics / Specifications

PARAMETER	VALUE
Model	04339-65006
Brand	Agilent / Keysight
Catalog Title	Agilent/Keysight 04339-65006
Sku	04339-65006
Product Class	catalog accessory or spare
Listing Status	published catalog item
Document Class	accessory or spare identity sheet
Numeric Table Status	no public OEM numeric table for this exact SKU
Identity Source	Aumictech product catalog listing
Parent System	as named in the catalog title
Form Factor	accessory or spare hardware
Use Role	replacement or configuration accessory
Electrical Limits	not published for this SKU; see parent instrument datasheet
Mechanical Limits	not published for this SKU; see packing list or faceplate
Interface	as implied by the catalog title and parent family
Configuration Code	04339-65006
Manufacturer Line	Agilent / Keysight
Documentation Note	thin accessory sheet
Calibration Class	notastandalone calibrated instrument unless the title states otherwise
Replacement Class	catalog spare or accessory
Public Spec Density	identity only

Full OEM specifications

Complete technical content extracted from the manufacturer datasheet. Sparse OEM tables are reconstructed as tables below; other text is preserved as paragraphs.

performance table. The rows below are verified catalog identity from the product listing. Finer electrical or mechanical limits belong on the faceplate, packing list, or calibration certificate.

Applications

Replacement spare, system accessory, or configuration-specific hardware matching the listed catalog SKU.

Key Features

Catalog identity matched to brand, model, and SKU

Accessory or spare class rather than standalone instrument

No invented electrical performance numbers

Use with the parent instrument or chassis named in the title when applicable

Documented as thin because OEM numeric tables are not public
