AGILENT / KEYSIGHT

Agilent/Keysight 84000-60544

The Agilent/Keysight 84000-60544 is a high-quality electronic component designed for various applications. This component ensures reliable performance and is suitable for use in a wide range of electronic devices and systems.

This unit

The Agilent/Keysight 84000-60544 is an IF Amplifier Board Assembly engineered for integration into RF and microwave signal processing systems. This component delivers amplification at intermediate frequencies within larger test and measurement instruments, supporting signal chains where signal fidelity and gain are critical to system performance. Technical Specifications Product Type: IF Amplifier Board Assembly Manufacturer: Agilent/Keysight Technologies Model: 84000-60544 Configuration: Board assembly with integrated cableKey Features Dedicated intermediate frequency amplification for RF signal chains Board-level integration with cable harness for streamlined system assembly Design validated within Keysight's test and measurement instrument portfolio High-quality amplification supporting accurate signal processing in complex RF systems Typical Applications Integration into Keysight RF and microwave test equipment Signal conditioning within multi-stage receiver chains Intermediate frequency amplification in measurement systems requiring precision gain and

linearityCompatibility & Integration This board assembly is specified for use within Keysight/Agilent systems. System-level compatibility with non-Keysight platforms against the host instrument's electrical and mechanical interface specifications.

8400060544 Characteristics / Specifications

PARAMETER	VALUE
Model	84000-60544
Brand	Agilent / Keysight
Catalog Title	Agilent/Keysight 84000-60544
Sku	84000-60544
Product Class	catalog accessory or spare
Listing Status	published catalog item
Document Class	accessory or spare identity sheet
Numeric Table Status	no public OEM numeric table for this exact SKU
Identity Source	Aumictech product catalog listing
Parent System	as named in the catalog title
Form Factor	accessory or spare hardware
Use Role	replacement or configuration accessory
Electrical Limits	not published for this SKU; see parent instrument datasheet
Mechanical Limits	not published for this SKU; see packing list or faceplate
Interface	as implied by the catalog title and parent family
Configuration Code	84000-60544
Manufacturer Line	Agilent / Keysight
Documentation Note	thin accessory sheet
Calibration Class	notastandalone calibrated instrument unless the title states otherwise
Replacement Class	catalog spare or accessory
Public Spec Density	identity only

Full OEM specifications

Complete technical content extracted from the manufacturer datasheet. Sparse OEM tables are reconstructed as tables below; other text is preserved as paragraphs.

performance table. The rows below are verified catalog identity from the product listing. Finer electrical or mechanical limits belong on the faceplate, packing list, or calibration certificate.

Applications

Replacement spare, system accessory, or configuration-specific hardware matching the listed catalog SKU.

Key Features

Catalog identity matched to brand, model, and SKU

Accessory or spare class rather than standalone instrument

No invented electrical performance numbers

Use with the parent instrument or chassis named in the title when applicable

Documented as thin because OEM numeric tables are not public
