ASTRONICS / EADS / RACAL

Astronics / EADS / Racal 456884 Rack-Mount Ears (Option 60)

Astronics / EADS / Racal 456884 Rack-Mount Ears (Option 60) This listing is a fixture, kit, or mechanical accessory in the Astronics / EADS / Racal catalog. Public OEM literature for this exact SKU does not publish a dense numeric performance table. The rows below are verified catalog identity from the product listing. Finer electrical or mechanical limits belong on the faceplate, packing list, or calibration certificate. Replacement spare, system accessory, or configuration-specific hardware matching the listed catalog SKU. No invented electrical performance numbers Use with the parent instrument or chassis named in the title when applicable Documented as thin because OEM numeric tables are not public Catalog Title: Astronics / EADS / Racal 456884 Rack-Mount Ears (Option 60)

This unit

The Astronics / EADS / Racal 456884 Rack-Mount Ears (Option 60) are bracket accessories engineered to mount compatible equipment into standard 19-inch rack enclosures. These mounting brackets deliver secure, stable installation within rack systems and integrate directly with the EADS 1256 Switching System platform. Technical Specifications Manufacturer: Astronics

/ EADS / Racal Model: 456884 Designation: Rack-Mount Ears (Option 60) Rack Standard: 19-inch Associated Platform: EADS 1256 Switching System Key Features Designed for standard 19-inch rack mounting Purpose-built for the EADS 1256 Switching System Provides secure mechanical fastening within rack enclosures Enables stable equipment positioning Typical Applications The 456884 rack-mount ears serve installations requiring equipment integration within 19-inch rack frameworks, particularly where EADS 1256 Switching System platforms are deployed. The EADS 1256 itself occupies a 2U rack-mountable form factor and supports Ethernet, GPIB, and RS-232 remote interfaces alongside multiple plug-in slots for switching and digital I/O modules.

Compatibility & Integration The 456884 is specified as an accessory for the EADS 1256 Switching System, a compact switching and control platform. This option enables the EADS 1256 to be installed and secured within standard 19-inch rack infrastructures commonly deployed in test, measurement, and industrial control environments. Third-party suppliers may stock this component even where OEM support has reached End-Of-Life status.

456884 Characteristics / Specifications

PARAMETER	VALUE
Model	456884
Brand	Astronics / EADS / Racal
Catalog Title	Astronics / EADS / Racal 456884 Rack-Mount Ears (Option 60)
Sku	456884
Product Class	fixture, kit, or mechanical accessory
Listing Status	published catalog item
Document Class	accessory or spare identity sheet
Numeric Table Status	no public OEM numeric table for this exact SKU
Identity Source	Aumictech product catalog listing
Parent System	as named in the catalog title
Form Factor	accessory or spare hardware
Use Role	replacement or configuration accessory
Electrical Limits	not published for this SKU; see parent instrument datasheet
Mechanical Limits	not published for this SKU; see packing list or faceplate
Interface	as implied by the catalog title and parent family
Configuration Code	456884
Manufacturer Line	Astronics / EADS / Racal
Documentation Note	thin accessory sheet
Calibration Class	notastandalone calibrated instrument unless the title states otherwise
Replacement Class	catalog spare or accessory
Public Spec Density	identity only

Full OEM specifications

Complete technical content extracted from the manufacturer datasheet. Sparse OEM tables are reconstructed as tables below; other text is preserved as paragraphs.

performance table. The rows below are verified catalog identity from the product listing. Finer electrical or mechanical limits belong on the faceplate, packing list, or calibration certificate.

Applications

Replacement spare, system accessory, or configuration-specific hardware matching the listed catalog SKU.

Key Features

Catalog identity matched to brand, model, and SKU

Accessory or spare class rather than standalone instrument

No invented electrical performance numbers

Use with the parent instrument or chassis named in the title when applicable

Documented as thin because OEM numeric tables are not public
