DAQSTUFF

DAQstuff 100288 68-Pin Female Breadboard Adapter

DAQstuff 100288 68-Pin Female Breadboard Adapter This listing is a adapter, pod, or probe accessory in the DAQstuff catalog. Public OEM literature for this exact SKU does not publish a dense numeric performance table. The rows below are verified catalog identity from the product listing. Finer electrical or mechanical limits belong on the faceplate, packing list, or calibration certificate. Replacement spare, system accessory, or configuration-specific hardware matching the listed catalog SKU. Catalog identity matched to brand, model, and SKU. No invented electrical performance numbers. Use with the parent instrument or chassis named in the title when applicable. Documented as thin because OEM numeric tables are not public.

This unit

The DAQstuff 100288 is a 68-pin female breadboard adapter that bridges DAQ devices to standard breadboard prototyping platforms. It has a direct interface for connecting sensors, circuits, and electronic components to DAQ systems using the familiar breadboard format. Engineers and developers use this adapter to simplify prototype development, accelerate iteration cycles, and conduct rapid circuit experimentation without custom interface fabrication. Technical

Specifications Connector Type: 68-pin female interface Impedance: 50 Ohm Breadboard Interface: Standard breadboard pin headers Key Features Female 68-pin connector accepts compatible male DAQ device connectors Direct integration path from DAQ hardware to breadboard prototyping environments Enables rapid component swapping and circuit reconfiguration during development cycles Maintains signal integrity through 50 Ohm impedance design Typical Applications Sensor integration with data acquisition systems Circuit prototyping and breadboard-based testing Signal conditioning and preliminary measurement validation Multi-channel analog and digital experimentation Compatibility & Integration The 100288 interfaces with DAQ devices featuring 68-pin male connectors. Compatible platforms include National Instruments M-series, S-series, and B-series devices that use 68-pin connectors, as well as equivalent DAQstuff products such as the 100384 68-pin breadboard adapter. The adapter's breadboard footprint accommodates standard solderless breadboard strips, enabling direct component placement and jumper-wire routing without intermediate cabling.

100288 Characteristics / Specifications

PARAMETER	VALUE
Model	100288
Brand	DAQstuff
Catalog Title	DAQstuff 100288 68-Pin Female Breadboard Adapter
Sku	100288
Product Class	adapter, pod, or probe accessory
Listing Status	published catalog item
Document Class	accessory or spare identity sheet
Numeric Table Status	no public OEM numeric table for this exact SKU
Identity Source	Aumictech product catalog listing
Parent System	as named in the catalog title
Form Factor	accessory or spare hardware
Use Role	replacement or configuration accessory
Electrical Limits	not published for this SKU; see parent instrument datasheet
Mechanical Limits	not published for this SKU; see packing list or faceplate
Interface	as implied by the catalog title and parent family
Configuration Code	100288
Manufacturer Line	DAQstuff
Documentation Note	thin accessory sheet
Calibration Class	notastandalone calibrated instrument unless the title states otherwise
Replacement Class	catalog spare or accessory
Public Spec Density	identity only

Full OEM specifications

Complete technical content extracted from the manufacturer datasheet. Sparse OEM tables are reconstructed as tables below; other text is preserved as paragraphs.

performance table. The rows below are verified catalog identity from the product listing. Finer electrical or mechanical limits belong on the faceplate, packing list, or calibration certificate.

Applications

Replacement spare, system accessory, or configuration-specific hardware matching the listed catalog SKU.

Key Features

Catalog identity matched to brand, model, and SKU

Accessory or spare class rather than standalone instrument

No invented electrical performance numbers

Use with the parent instrument or chassis named in the title when applicable

Documented as thin because OEM numeric tables are not public
