EOS POWER

EOS Power 130W Quad Output Power Supply

Aumictech offers NIST-traceable calibration and repair for the EOS Power VLT130-4100. All calibrations are performed to NIST-traceable standards and ship with a certificate. Turnaround is typically 1–3 business days after receipt. This EOS Power VLT130-4100 is listed at . Calibration is available separately from . Contact us for volume pricing or if you need multiple units. NIST-traceable calibration for the EOS Power VLT130-4100 is (standard — pass/fail certificate and calibration sticker) or (full measured data at every test point, reference standards documented, traceability chain included). Turnaround is 1 to 3 business days after receipt. See full calibration details →

This unit

The EOS Power VLT130-4100 is a versatile quad-output power supply engineered to provide dependable and efficient power conversion. This power supply is characterized by its compact form factor and its ability to accept a universal input voltage (90-264VAC), making it adaptable to various global power standards. It has comprehensive protection against overvoltage, overcurrent, and short circuits, ensuring safe and reliable operation. The multiple output voltages

and currents allow it to power diverse components within a system, making it an excellent choice for complex applications where space and reliability are critical.

VLT1304100 Characteristics / Specifications

PARAMETER	VALUE
Model	VLT130-4100
Instrument Type	Quad-output switching power supply
Family	EOS Power VLT130
Output Power	130 W
Output Count	quad output (4100 code)
Manufacturer	EOS Power
Literature	EOS Power VLT130-4100 130 W quad-output listings
System Role	multi-rail AC-DC
Use Case	instruments and embedded hosts
Input Class	universal-AC class
Form Factor	open-frame/enclosed class 130 W brick
Documentation Type	VLT130-4100 listing
Brand Lineage	EOS Power
Application Class	quad-rail DC power
Related	VLT130 family
Connector Class	AC input plus quad DC rails
Cooling Class	convection/forced-air class 130 W
Host Class	embedded / instrument
Year Class	VLT130-4100
Ate Class	multi-rail PSU
Module Class	switching supply
Rail Class	four DC outputs
Power Class	130 W
Conversion Class	AC-DC switcher

VLT1304100 Specifications

PARAMETER	VALUE
Applications	130 W quad-output AC-DC for instruments, embedded PCs, and industrial control.
Key Features	130 W quad-output switching supply
EOS VLT130 family	4100 quad-rail output code
Technical Specifications	Model: VLT130-4100

Full OEM specifications

Complete technical content extracted from the manufacturer datasheet. Sparse OEM tables are reconstructed as tables below; other text is preserved as paragraphs.
