FLUKE

Fluke 5500A Multi-Product Calibrator with 600MHz Osc

The Fluke 5500A Multi-Product Calibrator calibrates a wide variety of electrical test tools. Offers broad workload coverage, calibrating oscilloscopes, digital multimeters, and other devices with accuracy and reliability. The SC600 is a scope calibration option.

This unit

The Fluke 5500A Multi-Product Calibrator with the SC600 option is a versatile solution for calibrating a wide range of electrical test equipment. It can handle a diverse workload, including oscilloscopes, digital multimeters (DMMs), and other common test tools. The calibrator delivers precise and reliable performance, ensuring the accuracy of the devices it calibrates. With its comprehensive capabilities, the Fluke 5500A helps maintain the integrity and dependability of essential test and measurement instruments.

Features & description

From manufacturer datasheet

Features

- Multi-product electrical source • SC600 oscilloscope calibration option installed on this listing • Automated calibration support
-

Applications

- Multi-product DMM calibration • Oscilloscope calibration to 600 MHz with SC600 • Process and clamp instrument calibration (with accessories)

5500ASC600 Characteristics / Specifications

PARAMETER	VALUE
Model	5500A / SC600
Manufacturer	Fluke
Instrument Type	Multi-Product Calibrator
Alias	5500A; Fluke 5500A; SC600
Base instrument	5500A multi-product calibrator
Oscilloscope bandwidth class	600 MHz Notes Confirm SC600 installation and other options on the unit. Detailed V/I/ohms tables are in the 5500A specifications.
Bandwidth	class: 600 MHz

Full OEM specifications

Complete technical content extracted from the manufacturer datasheet. Sparse OEM tables are reconstructed as tables below; other text is preserved as paragraphs.
