GENRAD

GenRad 1433-Q High Precision Decade Resistor

The GenRad 1433-Q is a precision decade resistor designed for calibration and testing applications. It offers high accuracy and stability, making it suitable for metrology labs and quality control environments. This decade resistor features a wide resistance range and excellent long-term performance.

This unit

The GenRad 1433-Q decade resistor provides a reliable and accurate means of introducing specific resistance values into a circuit. Its solid construction and high-quality components ensure minimal drift and consistent performance over time. Ideal for calibrating instruments, verifying circuit designs, and performing precision measurements.

1433Q Characteristics / Specifications

PARAMETER	VALUE
Model	1433-Q
Instrument Type	High precision decade resistor
Family Line	GenRad 1433 decade resistors
Manufacturer	GenRad IET Labs
Literature	GenRad 1433-Q high precision decade resistor listings
Family	GenRad 1433 decades
Brand Lineage	GenRad IET Labs
Form Factor	decade resistor box
System Role	precision resistance standard
Use Case	DMM and bridge calibration
Documentation Type	OEM 1433-Q listing
Year Class	GenRad 1433
Application Class	resistance metrology
Vendor Path	GenRad IET
Decade Class	precision decade
Documentation Class	OEM 1433-Q catalog
Control Class	decade switches
Companion Role	GenRad 1433 family
Operating Mode	passive decade resistor
Instrument Class	decade resistor
Accuracy Class	high precision
Metrology Class	resistance standard
Enclosure Class	1433 decade box
Terminal Class	laboratory binding posts
Power Class	passive resistor

PARAMETER	VALUE
Display Class	decade dials

Full OEM specifications

Complete technical content extracted from the manufacturer datasheet. Sparse OEM tables are reconstructed as tables below; other text is preserved as paragraphs.
