KEYSIGHT / AGILENT

Keysight (Agilent) 34190A

The 34190A is a Keysight rack-mount kit for half-rack-width instruments (common with 344xx DMMs, 349xx DAQ, and related bench instruments). Provides the brackets/hardware to mount a compatible instrument in a standard 19-inch rack. Alias: 34190A; Agilent 34190A; Keysight 34190A. Confirm instrument model compatibility and included bracket set on the kit; no electrical performance specs apply.

This unit

The Keysight 34190A is a 19-inch rack mount kit engineered for secure installation of half-rack width, 2U height instruments. It has flexible left or right side positioning within standard equipment racks, optimizing space utilization in multi-instrument test environments. The kit includes a rack flange, half-rack width filler panel, instrument mounting screws, rack screws with nuts, and English-language installation instructions. Metal construction with standard rack mount finish ensures durability in industrial settings.

Technical Specifications
Rack Unit Height: 2U
Rack Width Compatibility: Half-rack width instruments
Mounting Configuration: Single instrument, left or right side positioning
Included Components: One rack flange, one half-rack width filler panel, four instrument-mounting screws, four rack screws with nuts, English installation instructions
Rack System Compatibility: System II or System II Plus cabinets
Construction: Metal with mounting hardware, standard rack mount finish

Key Features
Accommodates half-rack width instruments

rated at 2U height Dual mounting orientation (left/right) for flexible rack layout Complete hardware package eliminates need for separate fasteners Filler panel maintains aesthetic continuity and airflow control in rack enclosures Installation instructions included for rapid deployment

Typical Applications The 34190A supports organized mounting of test and measurement instruments in multi-unit rack configurations, enabling efficient laboratory and production test setups with consolidated instrument access and cable management.

Compatibility & Integration The 34190A is compatible with a wide range of Keysight half-rack, 2U instruments including digital multimeters (34460A, 34461A, 34470A, 34401A, 34410A, 34411A, 34420A, 3446XA Series), data acquisition/switch units (34970A, 34972A), frequency counters (531xxA Series, 53200 Series), function generators (33500 Series, 33600 Series, 33120A, 33220/250A, 33521A/33522A, 33500B Series, 33250A, 335xxB, 33600A), most E3600 Series power supplies, and other 2-slot, half-rack sized Keysight products.

Features & description

From manufacturer datasheet

Features

• Accessory type: rack mount kit • Form: half-rack instrument mounting hardware • Compatible family examples: 344xx series DMMs; 349xx data acquisition; related Keysight half-rack chassis • Not an electrical instrument

Applications

• 19-inch rack installation of half-rack Keysight instruments • System ATE cabinet mounting • Pairing two half-rack instruments side-by-side (system-dependent)
